

# Initial A™: Single use distal fibula sterile kits

## Initial A™ - Fibula & Syndesmosis kits content

### Intended purpose:

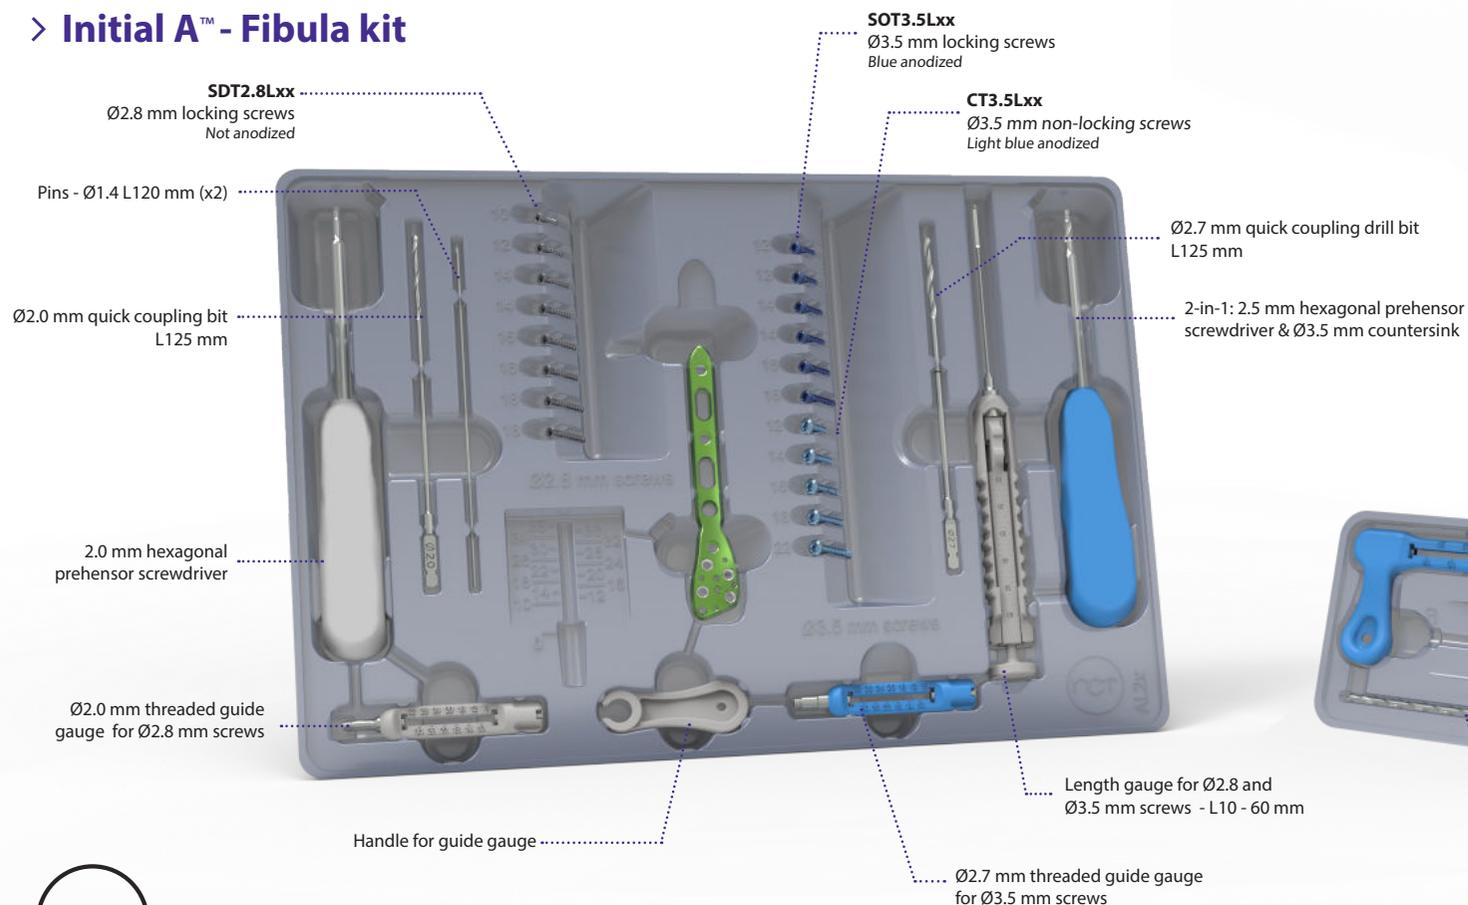

The implants of the Initial A™ range are intended for the fixation of fractures, osteotomies and pseudarthroses of the distal and the diaphyseal fibula, the distal tibia and for the syndesmosis repair in adults.

### Contraindications:

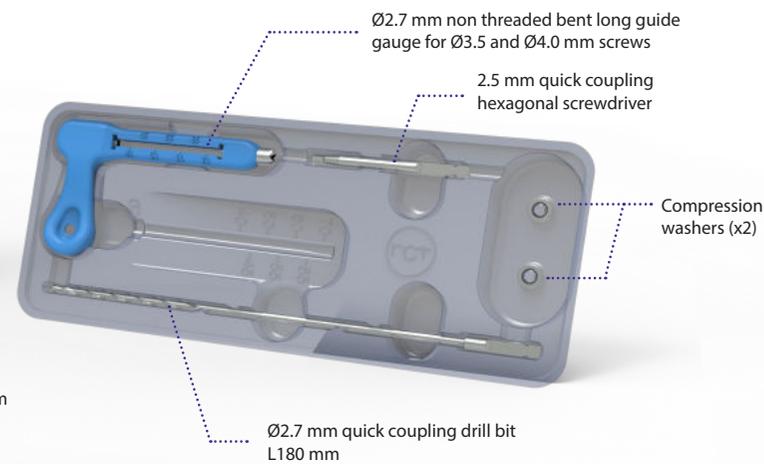

- Pregnancy.
- Acute or chronic local or systemic infections.
- Allergy to one of the materials used or sensitivity to foreign bodies.
